

Christmas Farewell at Volkshochschule

[Verse]

Snow flakes falling on ancient
streets
Volkshochschule halls so sweet
Courses ending one by one
Farewell time has just begun

The picture was generated with AI,
prompted by Mathias Gellrich

[Verse]

Language echoes in the air
Art and science everywhere
Books are closing students smile
Cherished moments last a while

Knowledge gained let's go explore
Candles flicker dreams take flight
Peace surrounds us on this night
Teachers guides through every
course

[Chorus]

Under stars so bright and clear
Goodbye friends and holiday cheer
In our hearts the lessons stay
Merry Christmas along the way

Magic felt love in full force

[Chorus]

Under stars so bright and clear
Goodbye friends and holiday cheer
In our hearts the lessons stay
Merry Christmas along the way

[Verse]

Knitting scarves in winter's glow
Learning skills as cold winds blow
Memories in lessons pure
